Subject: absolutely opposed to the waterfront protection plan increasing setbacks

To whom it may concern,

I have recently acquired waterfront property in Squitty Bay. I am writing to express my opposition to the waterfront protection plan and new proposed setback of 30 meters. With all due respect, I did not move to the island to have rules and regulations dictate what I do on my property that I pay high taxes for. I tread lightly on Lasqueti, in the forest and on the waterfront and feel many of the residence do the same.

I feel the intense storms that hurdle huge logs around and into the shoreline during the winter months do more damage than any little boat shed, or kayak shed or other small building on post and pad construction will do.

Sincerely,
Lisa Mackay
