

PROPOSED

NORTH PENDER ISLAND LOCAL TRUST COMMITTEE BYLAW NO. 214

A BYLAW TO AMEND NORTH PENDER ISLAND OFFICIAL COMMUNITY PLAN BYLAW NO. 171, 2007

The North Pender Island Local Trust Committee enacts in open meeting assembled as follows:

1. CITATION

This Bylaw may be cited for all purposes as “North Pender Island Official Community Plan Bylaw No. 171, 2007, Amendment No. 2, 2017”.

2. SCHEDULES

2.1 North Pender Island Official Community Plan No. 171, 2007 Schedule “A” is amended as shown on Schedule 1 attached to and forming part of this bylaw.

2.2 North Pender Island Official Community Plan No. 171, 2007 Schedule “B” – Land Use Map - is amended, as shown on Schedule 2, attached to and forming part of this bylaw.

2.3 North Pender Island Official Community Plan No. 171, 2007 Schedule “A” is further amended as shown on Schedule 3 attached to and forming part of this bylaw.

2.4 North Pender Island Official Community Plan No. 171, 2007 is amended as shown on Schedule 4 attached to and forming part of this bylaw.

3. SEVERABILITY

If any provision of this Bylaw is for any reason held to be invalid by a decision of any Court of competent jurisdiction, the invalid provision must be severed from the Bylaw and the decision that such provision is invalid must not affect the validity of the remaining provisions of the Bylaw.

READ A FIRST TIME THIS	21 st	DAY OF	SEPTEMBER	2017
PUBLIC HEARING HELD THIS	_____	DAY OF	_____	20____
READ A SECOND TIME THIS	_____	DAY OF	_____	20____
READ A THIRD TIME THIS	_____	DAY OF	_____	20____
APPROVED BY THE EXECUTIVE COMMITTEE OF THE ISLANDS TRUST THIS	_____	DAY OF	_____	20____
APPROVED BY THE MINISTER OF MUNICIPAL AFFAIRS AND HOUSING THIS		DAY OF	_____	20____
ADOPTED THIS	_____	DAY OF	_____	20____

Chair

Secretary

**NORTH PENDER ISLAND LOCAL TRUST COMMITTEE
BYLAW NO. 214**

SCHEDULE 1

The NORTH PENDER Island Official Community Plan No. 171, 2007 Schedule "A", is amended as follows:

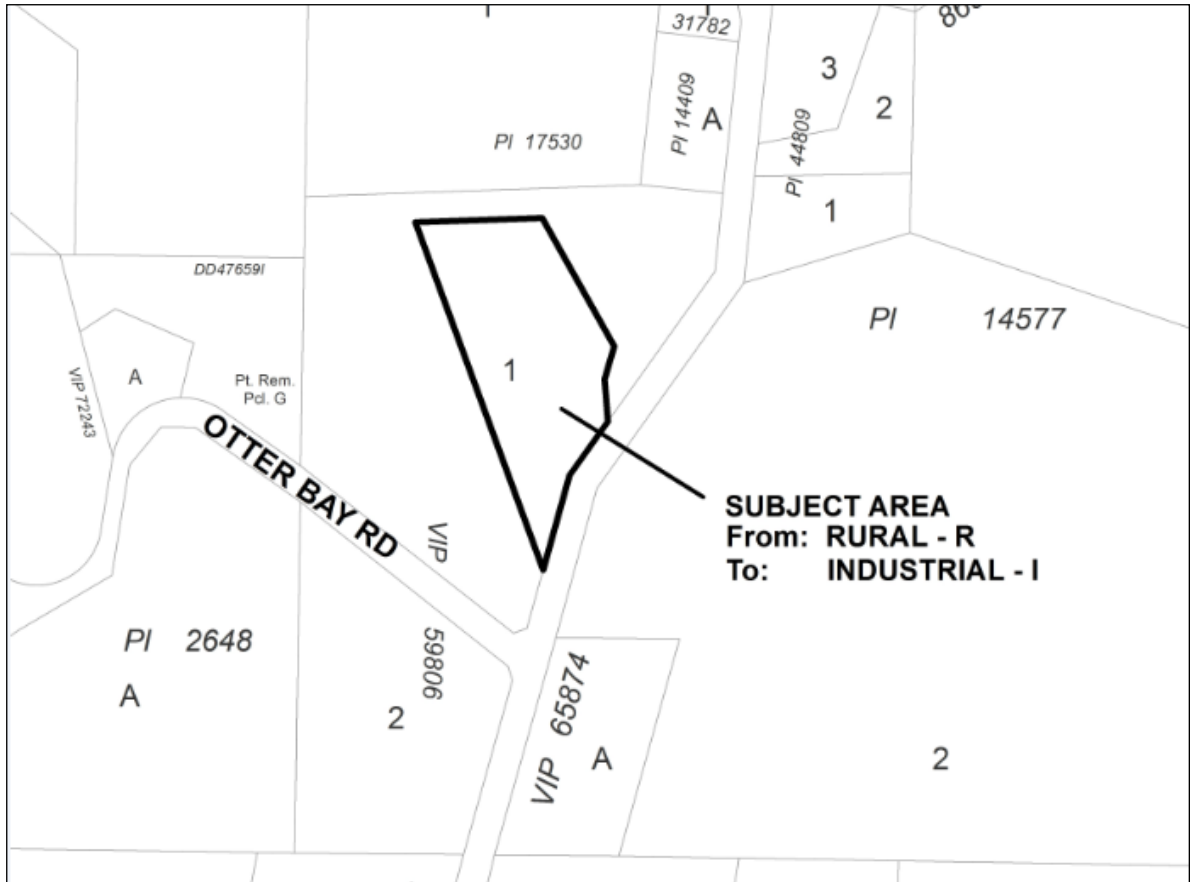

1. Section 1.2 (Goals), is amended by adding a new goal as follows:
 - 19) To minimize waste and maximize recycling in the management of solid waste and discarded materials.
2. Section 3.3.2 (Solid Waste Disposal) is amended by adding new objectives under Solid Waste Objectives as follows:
 - 3) To support the reduction, recycling, and reuse of solid waste and discarded materials.
 - 4) To accommodate the facilities and services that provide North Pender Island with necessary collection, storage, processing, and transfer of solid waste and recyclable materials, while minimizing the impacts on neighbourhoods, community health and the island's environment.
 - 5) To protect the island's environment from contamination by solid waste and recyclable materials.
3. Section 3.3.2 (Solid Waste Disposal) is amended by adding new policies under Solid Waste Policies and re-numbering the Advocacy Policies accordingly:
 - 3.3.2.4 The Local Trust Committee may permit and regulate the appropriate development of sites to provide the community with a range of service options for the storage and transfer of solid waste and recycling.
 - 3.3.2.5 Waste transfer uses should be protected from hazardous conditions and should not adversely affect the rural and residential character of the community, the natural environment, or farming.
 - 3.3.2.6 The Local Trust Committee may regulate waste transfer uses and designate Development Permit Areas to ensure waste transfer uses:
 - a) are screened by vegetation to limit visual impacts;
 - b) are located outside community water system supply watersheds, areas with high groundwater vulnerability, and environmentally sensitive areas;
 - c) are designed to avoid leachate from entering the natural environment;
 - d) are designed to minimize traffic impacts on adjacent neighbourhoods;
 - e) are not located on naturally productive agricultural soils;
 - f) are designed to minimize fire risk.
 - 3.3.2.7 The Local Trust Committee may support both publicly and privately-operated solid waste transfer sites.
4. Section 3.3.2 (Solid Waste Disposal) is amended by adding a new policy under Advocacy Policies:
 - 3.3.2.12 The Local Trust Committee encourages the Capital Regional District to regulate waste transfer operations on North Pender Island.

5. The Table of Contents and list of schedules is updated to reflect the changes made by this bylaw.

**NORTH PENDER ISLAND LOCAL TRUST COMMITTEE
BYLAW NO. 214**

SCHEDULE 2

The NORTH PENDER Island Official Community Plan No. 171, 2007, Schedule B, Land Use Map is amended as follows:

**NORTH PENDER ISLAND LOCAL TRUST COMMITTEE
BYLAW NO. 214**

SCHEDULE 3

The NORTH PENDER Island Official Community Plan No. 171, 2007, Schedule A is amended as follows:

Section 5.2 (Development Permit Areas), is amended by adding a new Development Permit Area following Development Permit Area Ten as follows:

5.2.12 DEVELOPMENT PERMIT AREA ELEVEN – WASTE TRANSFER DEVELOPMENT PERMIT AREA

5.2.12.1 Authority

This development permit area is established pursuant to the following sections of the *Local Government Act*:

- 488 (1) (a) protection of the natural environment, its ecosystems and biological diversity;
- 488 (1) (b) protection of development from hazardous conditions;
- 488 (1) (c) protection of farming;
- 488 (1) (f) establishment of objectives for the form and character of commercial, industrial or multi-family residential development;

5.2.12.2 Special Conditions or Objectives that Justify the Designation

Development Permit Area Eleven encompasses all lands shown on Schedule “Q” which may be zoned by the North Pender Island Local Trust Committee to permit the operations of waste transfer uses, including commercial recycling, and commercial composting. The North Pender Island Local Trust Committee recognizes that if not well designed and carefully managed, these uses can have negative impacts on both surrounding neighbourhoods and the natural environment. Waste transfer uses should be protected from hazards and should not adversely affect the rural and residential character of the community and the natural environment, or farming. Development Permit Area Eleven is implemented to help guide the land use planning of waste transfer uses, including commercial recycling and commercial composting to minimize the potential for negative impacts. Its specific objectives are as follows:

- a. To ensure that the waste transfer uses, including commercial recycling and commercial composting, as permitted on North Pender Island, can develop with the least impact on the natural environment.
- b. To ensure that the waste transfer uses, including commercial recycling and commercial composting, as permitted on North Pender Island, can develop with the least impact on neighbouring properties.
- c. To avoid a level of design regulation that could affect the viability of waste transfer uses, including commercial recycling and commercial composting.

- d. To buffer agricultural land from impacts associated with waste transfer uses, including commercial recycling and commercial composting.

5.2.12.3 General Applicability

The following activities shall require a development permit whenever they occur within the DPA, unless specifically exempted:

- a. Construction of, addition to, or alteration of buildings and structures for waste transfer uses including commercial recycling and commercial composting.
- b. Alteration of land.

5.2.12.4 Designation

This development permit area is shown on Schedule "Q."

5.2.12.5 Application Requirements

All applications shall be consistent with all requirements established in the fees bylaw, development procedures bylaw, and development approval information bylaw adopted by the North Pender Island Local Trust Committee or Islands Trust Council.

5.2.12.6 Development Permit Exemptions

The following activities are exempt from any requirement for a development permit:

- a. Subdivision of land;
- b. Maintenance of existing landscaping;
- c. Repair and maintenance of existing buildings or structures, including lighting and signage, provided there is no addition to lot coverage or floor area, no exterior alterations requiring a building permit, and no change in the use of external materials that would result in the alteration of the form and character of the building or structure;
- d. Internal renovations or alterations;
- e. Repair and maintenance of existing roads, parking areas, paths and trails.

5.2.12.7 Guidelines

The intent of this development permit area is to ensure that development related to waste transfer uses, including commercial recycling and commercial composting, meets the special conditions and objectives described in 5.2.12.2. In considering the issuance of a development permit, the LTC should be satisfied that the following guidelines have been met where applicable and impose conditions where appropriate:

GUIDELINES FOR THE PROTECTION OF THE NATURAL ENVIRONMENT

General Guidelines for Environmental Protection

- 1) All leachate should be managed to protect natural watercourses and prevent the release of any contaminants from waste transfer uses, including commercial recycling and commercial composting, into the environment.

NP-BL-214

- 2) All trees and native vegetation should be retained except as necessary to establish the work and storage areas required for waste transfer uses, including commercial recycling and commercial composting, and as necessary to establish fire separation buffers.

Guidelines for Water Protection

- 3) All development associated with waste transfer uses, including commercial recycling and commercial composting, should avoid negative impacts on riparian areas, natural watercourses, and groundwater aquifers.
- 4) All development associated with waste transfer uses, including commercial recycling and commercial composting, should avoid negative impacts on fish habitat and marine ecosystems.
- 5) Waste transfer uses, including commercial recycling and commercial composting, should be designed to control drainage and erosion to prevent undesirable impacts resulting from new impervious surfaces or changes to site drainage.
- 6) Waste transfer uses, including commercial recycling and commercial composting, should be constructed to prevent stormwater and runoff from contacting solid waste and recyclable materials.

GUIDELINES FOR THE PROTECTION OF DEVELOPMENT FROM HAZARDOUS CONDITIONS

Guidelines for the Protection of Development from Wildfire Hazard

- 7) All waste transfer uses, including commercial recycling and commercial composting, should be designed to protect such uses from wildfire hazards.
- 8) A cleared area should be maintained between the perimeter vegetative buffer and all buildings, structures and work areas.
- 9) Water supply for fire protection should be provided.
- 10) Emergency vehicles should be able to readily reach all parts of the development.

Guidelines for the Protection of Development from Flood Risk

- 11) Where a property contains a surface water body it should be demonstrated that the waste transfer use, including commercial recycling and commercial composting, is not at risk from flooding.

Guidelines for the Protection of Development from Slope Hazard Risk

- 12) Where a property may be subject to a steep slope hazard according to Islands Trust mapping, it should be demonstrated that the waste transfer use, including commercial recycling and commercial composting, is not at risk of geotechnical hazard.

GUIDELINES FOR THE PROTECTION OF FARMING

General Guidelines for the Protection of Farming

- 13) Where a waste transfer use, including commercial recycling and commercial composting, is adjacent to farm land, the waste transfer uses should be sited and provide adequate vegetative screening, landscaping, or fencing to adequately separate or buffer the uses from farmland.

GUIDELINES FOR THE FORM AND CHARACTER OF INDUSTRIAL DEVELOPMENT

Guidelines for General Site Design, Building Location and Access

- 14) Site access to waste transfer uses, including commercial recycling and commercial composting, should maintain the general character of the surrounding neighbourhoods as much as possible. There should be only one access to such uses from the highway.
- 15) All waste transfer uses, including commercial recycling and commercial composting, should be sited to allow vehicles to maneuver without having to block or back onto adjacent streets.
- 16) All waste transfer uses, including commercial recycling and commercial composting, should be sited and designed for traffic circulation that meets anticipated service levels.
- 17) All waste transfer uses, including commercial recycling and commercial composting, should be sited and designed to minimize visual impacts on neighbouring properties and public areas. Particular attention should be paid to locating loading docks, garbage and recycling containers and other service areas so that visual impacts are minimal.
- 18) Storage of waste should be sited as far from adjacent residential and commercial uses as possible.
- 19) Buildings and other structures should utilize existing topography and vegetation and be sited in a manner that is relatively unobtrusive and blends into the surrounding landscape.

GUIDELINES FOR THE FORM AND CHARACTER OF BUILDINGS AND STRUCTURES

General Guidelines for the Form and Character of Buildings and Structures

- 27) Building mass shall be scaled to complement surrounding residential development and be softened by the use of small-scale elements.
- 28) Buildings should not be designed with blank walls presenting an aspect to the highway or to highly visible areas.

Guidelines for Lighting

- 31) Lighting should be kept to the minimum necessary for safety and visibility, to maintain a low level of light in the island's nighttime atmosphere.
- 32) Light fixtures mounted on masts or walls should be pedestrian in scale and should not exceed 3.5 metres in height.
- 33) Light fixtures should focus light on the area to be illuminated. The spillage of light into onsite residential areas, neighbouring properties, streets or other public areas including the sea should be avoided. Fixtures should not result in glare when viewed from residential areas.

Guidelines for Signage

34) Signs should not be sited more than 5 m above the ground.

VARIANCE PERMITS TO MEET DEVELOPMENT PERMIT AREA GUIDELINES

39) The LTC may consider variances to siting or size regulations where the variance may result in closer adherence to the guidelines of this section.

**NORTH PENDER ISLAND LOCAL TRUST COMMITTEE
BYLAW NO. 214**

SCHEDULE 4

The NORTH PENDER Island Official Community Plan No. 171, 2007 is amended by adding a new schedule "Q" Development Permit Area 11 as follows:
