

Jenny McClean

Accountable, Qualified, Local Experience

My name is Jenny McClean. I was born and raised on Salt Spring Island, and have raised my six children here.

Qualifications:

I have regularly attended Islands Trust Meetings since 2008, and know the planning processes extremely well. I chaired the Ganges Village Task Force. I have read the Official Community Plan, and the Land Use ByLaw. I was liaising with the Transportation Commission on behalf of the GVTF.

Accountability:

I am running for the Trust as an Independent. My motivation for running is based on my experience being involved in politics on the island. I have a deep love for this Island and community, and as a Trustee I regard my top priority as being truly accountable to the public. This means listening to what people say and addressing their concerns.

Local Experience:

As a mother of a large family, I have a personal understanding of the housing issue on this island. This issue must be addressed with community housing that is genuinely affordable for parents, with ample natural environment for children to freely play. I believe in local enrichment and equal quality of life regardless of income. I will balance the housing needs on this island with watershed protection.
