

**Jane
Wolverton**

From 2018 – 2022 I served as a Galiano Island Trustee and also as a member of the Regional Planning Committee and the Southern Gulf Island Forum. I am running to further the work begun on Reconciliation, Climate Action, Housing initiatives and on Islands Trust Governance on an island and region-wide basis.

The Trust needs to focus its resources on these topics to prepare the Islands Trust for future challenges, especially for the climate crisis.

I have dedicated much of my island life to strengthening community collaborations on Galiano. I served on the executive of the Galiano Club for 14 years, the last eight as President. I helped establish the Galiano Community Food Program in 2008, a key initiative that has strengthened food security on the island. I also served for 17 years on the Galiano Conservancy Association Board and was a founding member of GIGARHS – the Gulf Island Galisle Affordable Housing Society - and the Galiano Community Transportation Society.

For 32 years I worked in the Ministry of Children and Family Development and retired as the Community Services Manager of Burnaby, responsible for all of the Ministry's services. Since 2006, I have been a part-time consultant (trainer, policy writer, mentor and grant writer) to the Squamish First Nation Ayas Menmen Child and Family Services. I am proud to be running with Lisa Gauvreau, a dedicated community builder. Please check out our platform soon at: www.trustgaliano.com and please contact us with your questions and/or feedback. We will get things done!
